

## Climate Change

(This is a chapter from my book – I only have beautiful experiences)

*Some people don't believe in it, but the climate has always changed cyclically. There have been previous periods of extreme heat followed by ice!*

*So are we witnessing another cyclical change or is it man-made? Neither! It is elite-driven...*

*Did we ask you for petrol/diesel engine vehicles? Did we ask you for plastics? Did we ask you to cut- down the great rain forests? No! You gave us fossil fuels when the hydrogen fuel-cell was available. You suppressed the technology in favour of your own profits. So let's set the record straight:*

*We are witnessing Elite-driven Climate Change and that is what it should be known as.*

*We don't need global governance to deal with climate change; we need the elite to clean up their own mess. Equally, we don't need artificial intelligence (robots) to replace the human workforce; which is the goal of the elite. And we don't need a Universal Basic Income; we need the elite to stop fucking about with our lives...*

*The Elite-driven Climate Change goes beyond fossil fuels and cutting down trees and the use of pesticides etc.. They are engaged in climate change via their geo-engineering operations (the Chemtrails that are obvious in our skies). For more information on this please go to:*

*<https://www.geoengineeringwatch.org/>*

*Are we headed for a 'Day after Tomorrow' scenario? It certainly looks like it. The evidence Dane shares with us all, proves that we're on a collision course and it's all down to the Davos elite.*

*Global governance isn't the answer to climate change; it's the cause of it. It has been created to usher in their global governance.*

*Weather warfare is a secret weapon only because the masses are still sleeping. Look the other way and follow the elite-driven mainstream news...*

*Wherever there's money to be made, they are there. They will bake us and cut our throats! Just remember, Klaus is on video saying that Putin was one of their 'Young Global Leaders', which means Putin is one of them.*

*My work is the only credible alternative to the algorithmic future being steered by the elite. Why do we need robots that may or may not become sentient beings when we are sentient beings?*

*Let us not let these crazy elites make us redundant. The idea of complying with what they say in order to get a regular 'basic' handout from them, should horrify us all. It may not be here quite yet, but it's coming as sure as night follows day...*

*Carbon dioxide is the gas of life; it's what the trees need to give us the life-sustaining oxygen. Carbon is not the enemy! Let us not take the blame for what are not our crimes ~ Gary Bate.*
