

## **The common denominator by Gary Bate**

Let's look at some simple truth: What do Sunak, Biden, Jinping, Putin, Macron, Trudeau, Starmer, Cameron, Hunt, Von der Leyen, Netanyahu, Scholz, Lagarde and Sanchez all have in common? They are all Zionists. Is anti-Zionism anti-Jew? No, it's anti the collective agenda of these people.

What is Sunak and Putin and Biden and Macron and Trudeau and Jinping and Scholz and Sanchez and Netanyahu's job? To control all the people in their respective enclaves.

Maybe this simple truth is too simple for you? You see, the majority of people prefer complicated illusion and that's what all the Zionists give them. It's actually the second part of their job – to keep the masses distracted whilst they introduce more control mechanisms.

The original goal of Zionism may have been to form a Jewish homeland in Palestine, but that goal was quickly built upon to where we have seen the occupier gradually take the whole of Palestine.

Have you not heard the Cabinet members all repeat the same mantra 'to serve', suggesting and even saying, to serve the British people? His majesty's government serves his majesty.

Semitic cultures include Arabs, so to be branded anti-Semitic is not the same as anti-Jewish. We have recently seen Braverman (her husband is a Jew) using the anti-Semitic branding. I noted that the police are looking for a woman who was holding up a placard stating that the British government shouldn't be siding with Israel. Well I think it's disgusting how the Cabinet have all come out in support of the continued slaughter in Palestine and I'm not anti-Jewish or anti-Semitic.

Now let's put one thing to bed – the Jews are not God's favoured people. God does not have favourites. All peoples are equal in the eyes of God.

The Zionists also brand people with the term 'Conspiracy theorist'. They do this to suppress and mock the truth. Keep the masses ignorant and they are easy to control. What value is your life if you can't stand up for your truth?

So what can we expect from the Zionists in the near future? More distraction, more war(s), more viruses to create more fear, more vaccines, concentration camps for dissidents (already in place) and maybe a fake alien attack (to unite us under their control); but certainly global digital currency with expiry dates. They'll execute a global crash and the banks will take our money (bail ins), then they'll give it back to us in the form of digital currency with expiry dates, so that we cannot accumulate it. Their plan is to own and control everything on this planet and their CBDC has already been given the thumbs up in the EU. If we don't say no to this, we're going to live to see our own enslavement.

You have to know who the real enemy is. It's not the Jewish people. It's not the Chinese people. It's not any or all of the Arabs. It's not the Russians! The enemy is the Zionists. Do you honestly believe Jinping and Biden don't report to somebody? Why did they meet recently? They're not enemies! They're making plans for global enslavement (not just China!).

Macron comes out and tells Netanyahu to stop killing women and babies. Has he suddenly become a good guy? No – he's taking the piss.

According to Dane at [geoengineeringwatch.org](https://www.geoengineeringwatch.org) and his sources, the war was created because they've found huge amounts of oil and gas in the Gaza strip. Now of course I don't know how true that is; I'm just a friendly messenger ~ Gary Bate.
