

## World War 3 by Gary Bate

If you're astute, when you look at the 'influencers' in our World, you'll realise that the Nazi's just went to ground for a while and they've now re-surfaced. The eugenicists are still in control.

It's not been hidden from us. The Ted talks have made their plans crystal clear. They may leave the detail out but they tell us that they're going to trim us down.

On the surface, they continue the charade of 'Russia & China' being the enemies; but that's just 'good for business' – good for their business that is.

The political theatre is the successful distraction away from the unfolding global agenda.

Here in the UK there have been more deaths attributable to lockdowns than to Covid. The only pandemic is the pandemic of the vaccinated. People, like me, who rely on natural immunity, are now fugitives in many parts of the World.

Big pharma, which the governments have shielded from prosecution, has made billions from the vaccines and they have successfully seeded the cancer industry for even more future payouts...

Raw power is God on this planet and money is the playful Son. They don't care about you and I – it's a game to them!

Big Pharma is just a cog in the wheel – look at the list: <https://www.bain.com/industry-expertise/>

When you get behind these 'front-companies' and their 'front-men' you come to the owners and the controllers of this World...

We, the common people, have allowed other people to give us 'rights' or not; to give us freedoms or not; to tell us what we can say, do and eat. Our lives are totally governed by the people who control our governments (MY government).

We are sold on the illusion of freedoms and at the same time those freedoms are systematically being closed. China today is the World tomorrow. It's already happening in Australia & Europe.

Draconian measures are now in full swing and they have successfully turned the vaccinated against the unvaccinated. They continue to deny the short-term deaths from the vaccines and they will hide the longer term effects in the cancer figures. They will easily use the massive increases in cancer to sell people on more aspects of their agenda (like a new diet of compressed insects).

Is there a solution? Yes there is and I've already spelled it out for you. But I guess you'll take no action, as usual.

The most empowering thing you can do is to start to say no to authority, because the truth is, nobody can give you rights or freedom. You are deity and freedom was and is your birth right!

Living in a World where a few privileged control billions, is totally illusionary. Fighting a war that was created by the privileged few (Hitler was their front man) was both a travesty and a tragedy. The propaganda is cemented every year with the poppies...
